1. **Code Division monthly report: (See attached)**

Adjourn:

Online Utility Training

The Tennessee Comptroller of the Treasury is pleased to offer a full program of online utilities training for board members of municipalities and counties that oversee a water and/or wastewater system. A select number of hours of online training have also been approved for utility district commissioners and treatment authority board members.

Board members are required to have 12 hours of training within 12 months of their initial election or appointment (or re-election/reappointment after April 12, 2017 if representing a city, county or treatment authority system) and 12 hours every three years thereafter (this is referred to as a continuing education period).

The initial 12 hours is only required for the first election or appointment and not every election or appointment. Once a board member has satisfied their initial 12 hours after election or appointment, their continuing education period of three years begins on the following January 1st.

Getting Started

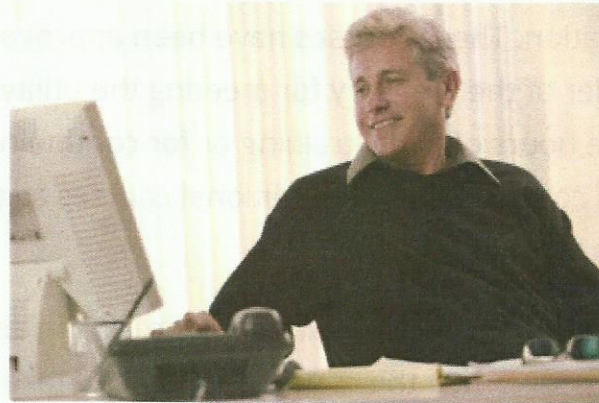

If you have not registered for the Comptroller's online training, you will need an email account. The email account will be your user name on the Traineze website.

Online Training for Utility District Commissioners and Utility Authority Board Members

In 2010, the Tennessee General Assembly mandated that utility district commissioners and utility authority board members receive 12 hours of training within one year of the date of their initial appointment or election to office. After receiving 12 hours of initial training, commissioners and board members are required to get 12 hours of
