

Covington Public Works/Utilities

DIRECTOR OF PUBLIC WORKS

City of Covington

Public Works Meeting

City Hall

Downstairs Board Room at 4:00 P.M.

November 3, 2020

1. Street lighting. (See Attached)
2. USDA loan discussion. (See Attached)
3. Update AMI system. (See Attached)
4. Update Gasifier.
5. Fall Street paving update.

Other Business:

1. Code Division monthly report: (See attached)

Adjourn:

COST OF INSTALLING ONE NEW LIGHT AT A NEW LOCATION

IF THE CITY BUYS AND OWNS LED FIXTURES:

FIXTURE COST	\$228.00
INSTALLATION COST	\$156.08
TOTAL ONE-TIME COST	\$384.08

IF CES BUYS AND OWNS LED FIXTURES:

MONTHLY FACILITY CHARGE	\$9.64
MONTHLY ENERGY CHARGE	\$3.14
TOTAL MONTHLY CHARGE	\$12.78

COMPARISON OF 250 W HPS COSTS

MONTHLY FACILITY CHARGE	\$8.38
MONTHLY ENERGY CHARGE	\$6.11
TOTAL MONTHLY CHARGE	\$14.49
	\$1.71

TO COMPARE ECONOMICS OF CITY OWNERSHIP:

- Total one-time cost/monthly facility charge 39.86 months to cover City's cost of ownership
- Cost of energy is same either way
- Any future maintenance/replacements labor costs will be charged to City
- Addition of new electrical facilities needed to serve light will increase installation costs

COST OF REPLACING ONE EXISTING FAILED NON-LED LIGHT WITH AN LED LIGHT

IF THE CITY BUYS AND OWNS LED FIXTURES:

FIXTURE COST	\$228.00
INSTALLATION COST	\$0.00
TOTAL ONE-TIME COST	\$228.00

IF CES BUYS AND OWNS LED FIXTURES:

MONTHLY FACILITY CHARGE	\$9.64
MONTHLY ENERGY CHARGE	\$3.14
TOTAL MONTHLY CHARGE	\$12.78

TO COMPARE ECONOMICS OF CITY OWNERSHIP:

- Total one-time cost/monthly facility charge 23.66 months to cover City's cost of ownership
- Cost of energy is same either way
- Any future maintenance/replacements labor costs will be charged to City
- Addition of new electrical facilities needed to serve light will increase installation costs

Preliminary Engineering Feasibility Report
Street Overlay Program
Covington, Tipton County, TN

- A. Need for the facility: The purpose of the requested loan is to finance the cost of repaving a series of eleven streets in Covington, TN. A safe and reliable street system for the citizens of Covington is essential to welfare, safety and economic well-being of the community.
- B. Existing facilities: The streets of Covington that are proposed to be repaved are a list of eleven streets of varying lengths and widths. The streets to be included in this report are: College Street, Garland Street, Bert Johnson Road, Mark Walker Road, Herring Drive, Winn Street, Oakview Street, Robbins Road, James Avenue, Wortham Road and Walters Street. College and Garland Streets have been overlaid through the years to the point that the existing curb and gutter is almost covered over with asphalt. As a result of the previous paving done on these two streets the existing asphalt will be removed by milling prior to the new asphalt surface being installed. All of Garland Street requires milling while College Street from West Pleasant to Gillespie Streets will require milling. Refer to Exhibit No. 1: Site Plan for locations of the street to be paved. The total length of streets in Covington to be repaved is approximately 29,030 linear feet.
- C. Proposed facility: The City of Covington has tried to maintain a repaving schedule for their city streets that would maintain the streets at a safe level. The streets listed in this report are now at a point where the streets need to be repaved. Some of the listed streets in this report have not been repaved in over 20 years. If the repaving is delayed much longer the streets will deteriorate to a point where major patch work will be required prior to repaving.
- D. Building site: The streets of Covington were inventoried and classified with a ranking system that identified the following parameters: streets that are heavily traveled, condition of the driving surface, and streets in residential areas. Utilizing these parameters the eleven listed streets were identified as the streets in most need of repair and overlay.

E. Cost Estimate:

COLLEGE STREET

Engineering Fees	
a) Loan Application	\$2,500.00
b) Engineering Design Services	\$77,000.00
c) Resident Inspection Services (\$2.50/Ton of Asphalt)	<u>\$16,500.00</u>
Total Engineering Fees	\$96,000.00
Loan Administration	\$20,000.00
Interest during Construction	\$15,000.00
Contingencies	\$110,000.00
Total Project Cost	\$1,350,650.30

F. Annual Operating Budget: Not applicable.

G. Maps, drawings, sketches and photographs: Exhibit No. 1 – Site Map

H. Construction Problems: None anticipated.

I. Conclusions and Recommendations: The City Streets identified in this report are currently beginning to deteriorate and are at a point where an overlay is warranted. The proactive approach of the City of maintaining an appropriate maintenance schedule will ensure that maintenance costs associated with the City Street System are held at an acceptable level.

Vanguard Utility Services, Inc.
