THERMAL IMAGING CAMERAS FOR FIREFIGHTERS

FLIR K65™

The FLIR K65 is independently certified to comply with the NFPA 1801:2021 Edition Standard for Thermal Imagers, covering usability, image quality, and durability for firefighting. The 320 × 240 pixel sensor produces crisp thermal images to improve firefighters' situational awareness. The K65 also features FLIR's proprietary FSX® Flexible Scene Enhancement technology for ultra-sharp, finer textured images that shows subtler details. With the K65 TIC, firefighters can see more clearly in the harshest environments, maneuver more strategically, stay better oriented, and find victims faster.

Location 101 Tennessee Ave Covington TN 38019

Intent of Specifications:

It is the intent of the Covington Fire Department to purchase 2 commercially produced Thermal Imaging Cameras (TIC), associated hardware and software for utilization during firefighting and hazardous material operations. The TIC shall serve as an adjunct tool for Fire department operations to include but not limited to, Structural fire size up, fire rescue, fire suppression, rapid intervention, overhaul, wildland firefighting, search and rescue.

The specification herein shall serve as a minimum standard necessary to safely and effectively accomplish the aforementioned operational requirements.

- 1) The Thermal Imaging Camera system (TIC) delivered to these specifications shall be a nationally available standard commercial product. Experimental or prototype cameras shall not be considered.
- 2) Materials used in construction of the Thermal Imaging Camera system shall be new, unused, and not less than the quality conforming to modern engineering and manufacturing practices. Materials shall be free of defects and suitable for the service intended.
- 3) The TIC shall be from a single source manufacturer. For the purposes of this specification, single source shall mean the camera product is manufactured/ assembled and serviced by the manufacturer. Warranty /service facilities shall be owned and operated by the single source manufacturer.
- 4) Exceptions and "equal to" proposals
 - a. Any bid submitted that proposes an "equal to" product shall include sufficient detailed technical documentation for the department to determine "equal to" standing. The department reserves the right to require additional information. "equal to" status shall be granted solely at the discretion and in opinion of the department.
 - b. The term "no exceptions" shall indicate items where exceptions will not be allowed
 - c. All exceptions shall be clearly identified and listed with the proposal. Failure to identify list exceptions shall be considered as unresponsive to these specifications and cause for rejection
 - d. Any proposal taking full exception to this specification shall not be considered responsive and shall be rejected.

Specific Line Item Requirements:

Bidders shall indicate compliance with these specifications on a line item basis by placing a check mark in the yes/no column corresponding to each line item. Bidders must furnish descriptive literature and complete manufacturer specifications with the submission of this documentation. No exception.

Quality Assurance:

The company manufacturing the Thermal Imaging Camera in response to this bid must furnish proof of current certification to the ISO9001-2008 quality standard.

Compliance Guarantee:

Bidders must guarantee that equipment tendered comply with all parts of this specification. The purchasing entity reserves the right to require the bidder to submit a sample of the equipment being tendered to the purchasing entity for validation and verification that all items claimed to be in compliance are in fact true and correct. If a bidder is requested to supply a sample of the equipment being tendered for testing, the equipment shall be supplied to, and received by, the purchasing entity within one week of notice. Inability to meet the timeline provided herein shall disqualify the bidder.

To whom it may concern:

1-5-2023

Due to our satisfaction with Safe Industries servicing our air packs, performing our annual facepiece fit tests, interacting with them at several TN fire conferences yearly, and purchasing miscellaneous loose equipment from them throughout the year the Covington Fire Dept. made the decision to request Neal Bailey to come to our department to demonstrate the Genesis 32" Spreader. We have been happy to work with Mr. Bailey on this tool, and the pricing we received to be able to purchase on the HGAC contract. We would like to proceed with the purchase.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Griggs". The signature is fluid and cursive, with a large, sweeping flourish at the end.
